Daily News Release for Water Supply Emergency

The water production for July 27th was 7.1 million gallons, and it is estimated that the water production for July 28th will be approximately 6 million gallons, which is a 15 percent reduction from the previous day and 48 percent reduction over the last two days.

Congratulations, the City of Salina citizens are following the prescribed water conservation measures and great progress is being accomplished towards getting the water supply stabilized.
